Pratyush Panda

Sydney, AUS | +61 434936692 | p.pratyush@outlook.com | LinkedIn/panda-pratyush | GitHub/pratyush-okay | pratyushp.com

Professional Summary

- Eager to join a forward-thinking organization as a Software Engineer, applying expertise in web development, AI, and cloud technologies to develop scalable solutions.
- Masters of IT graduate from UNSW with hands-on experience in Python, JavaScript, and C
- Demonstrated leadership experience, capable of managing teams and driving projects to completion.
- Strong foundation in Agile methodologies, ensuring efficient project execution and collaboration.

Technical Skills

Languages: Python, SQL, JavaScript, TypeScript, Postgres, C/C++, HTML/CSS, Bash
Frameworks & Libraries: React, Django, FastAPI, NodeJS, Flask, Express.js, Docker, MERN, TensorFlow, PyTorch, OpenCV, LlamaIndex, LangChain, CrewAI
Databases: PostgreSQL, MongoDB, MySQL, DynamoDB, Redis
Cloud & DevOps: AWS EC2, S3, Lambda, RDS, CloudFormation, IAM, API Gateway, CI/CD (GitHub Actions, GitLab CI), Docker Compose
Data & Analysis: Pandas, NumPy, Matplotlib, Seaborn, SQLAlchemy, Alembic
Testing & Tools: PyTest, Jest, Postman, Swagger/OpenAPI, Git, GitHub, GitLab
Security & Auth: OAuth2, JWT, CORS, HTTPS, RBAC

Experience

Full Stack Mobile Dev Intern Sydney, AUS
SmallChess *March 2025 – Present*

- Develop and enhance mobile applications using React Native, focusing on creating a seamless and responsive user interface for a chess application.
- Training custom large language models (LLMs) to enhance AI capabilities within the chess application, significantly improving user learning by providing analytics.
- Integrate custom Chess APIs to connect the chess application with external services, enhancing functionality and user experience.

Nightfill Manager (2 years) Sydney, AUS
Coles Local, York Street *September 2022 – Present*

- Lead and coordinate a team of 4-5 staff members, demonstrating strong leadership skills in a fast-paced retail environment while effectively delegating tasks based on individual strengths.
- Managing end-to-end delivery operations, including inventory reconciliation and implementing efficient stocking processes.
- Troubleshoot operational challenges in real-time, fostering a collaborative problem-solving environment that enhanced team productivity and store readiness.

Software Engineering Intern (6 months) Vadodara, India
Shail Technologies *February 2022 – August 2022*

- Engineered 3 micro-services for e-commerce product catalog and order management using MERN stack in a small-team environment, creating modular architecture that reduced deployment issues by 10%.
- Established cross-browser testing protocols for Chrome, Firefox, Safari, Edge and Opera browsers using manual testing and basic Cypress scripts, ensuring consistent UI/UX across Windows, Mac, and Android platforms.
- Took initiative to convert 6+ low-fidelity UI wireframes into functional web forms, collaborating directly with the founder to implement user feedback that improved form completion rates by 22%.

Projects

Seleckted: AI-powered Resume and Job Matcher | *Next.js, DynamoDB, S3, LlamaIndex, CrewAI* January 2024 – March 2024

- Built a full-stack job matching platform using LLMs to compare resumes against job descriptions, generating personalized feedback and match scores in real time.
- Integrated DynamoDB for user auth and job listing storage, and LlamaIndex with OpenAI API to structure resume parsing, vector search, and tailored response generation.
- Designed a responsive, intuitive frontend with Next.js, enabling seamless resume uploads to S3 and feedback visualization to streamline job prep.

Car Space Renting Management System | *Django, React, MySQL, Docker* January 2024 – April 2024

- Engineered a full-stack web application using Django, serving a REST API with React as frontend, creating 10+ key features and 40+ requirements exhibiting project management skills.
- Led a team of six as Scrum Master, implementing Agile methodologies by organising 3 sprints and facilitating retrospective meetings to improve team performance and maintaining an iterative development process.
- Collaborated with a cross-functional team to manage 40+ Jira tickets, design low-fidelity prototypes, and craft user stories, ensuring clear communication and alignment across all team members to streamline product creation.

Abstractive Dialogue Summarisation | *Python, LLMs* September 2023 – December 2023

- Conducted a comprehensive study comparing effectiveness of static versus dynamic, context-aware embeddings in dialogue summarization by deploying models Seq2Seq, BART, and T5.
- Achieved marked improvements in summarization by refining model architecture; fine-tuned BART model increased ROUGE-1 score from 0.2866 to 0.4215, outperforming a custom Seq2Seq model.

Education

University of New South Wales Sydney, AUS

Master of Information Technology, WAM: 72.1/100 *August 2022 – August 2024*

- Specialisation: Artificial Intelligence
- Recipient of the Future of Change Scholarship (UGCE1283)

Gujarat Technological University India

Bachelors in Computer Science and Engineering, GPA: 3.7/4.0 *June 2018 – June 2022*

Certifications and Achievements

AWS Certified Cloud Practitioner January 2025

Score: 781/1000

SXSW Hackathon (2 Days) : Notey Sydney, AUS

Best Groq Implementation Award *November 2024*

- A React.js-based system designed to help users learn unorganized notes more efficiently by generating mind maps. Utilizing Buildship for backend services, Notey transforms disorganized content into structured, visually intuitive formats that break down complex information for enhanced learning experience.

Intel Global AI Festival (3 Days) : Distributed City Surveillance System Global

AI Impact Creators Category 18+ India Winner *September 2022*

- Conceptualized and developed a distributed surveillance system, leveraging human-AI collaboration to detect over 5 types of weapon-related pre-crime signals, while providing technical support to resolve issues for end-users.
- Achieved 60% accuracy in weapon detection, presenting results on a dashboard built with React.
